

The 12 Laws of the Universe

1. The Law of Divine Oneness

We are all One. All Connected. Everything we do, say, think and believe affects others and the Universe around us.

2. The Law of Vibration

Everything in the Universe including thoughts are made up of energy. Everything vibrates at different frequencies. We emit a vibration. To materialize something on earth, you must first match the vibration of what you want.

3. The Law of Action

We must take action to manifest things on earth. Every action we take creates a result. We must engage in actions that support our thoughts, dreams, emotions, and words.

4. The Law of Correspondence

Our outer world is a mere reflection of our inner world. It corresponds with our dominant patterns of thinking. The state of our life is nothing more than a reflection/mirror of the state of our mind. If you want to change your life, change your thoughts.

5. The Law of Cause and Effect

Every action produces a reaction. Even our thoughts cause an effect. Each action produces an effect in equal portion. Large action, large effect.

6. The Law of Compensation

The Universe is always responding to the energy we put out. With every action, thought and emotion we are creating an equal measure of return. We reap what we have sown. The Law of Compensation is blessings and abundance rewarded to us in the form of gifts, money, inheritances, friendships, and opportunities.

7. The Law of Attraction

Like energies attract like energies. We create the things, events, and people that come into our lives. Our thoughts feelings, words, and actions, produce energies which, in turn, attract like energies. Negative energies attract negative energies and positive energies attract positive energies.

8. The Law of Perpetual Transmutation of Energy

We have the never ending ability to change the energy we are experiencing! Higher vibrations change/consume/transform lower vibrations. We each have the power to change the conditions in our lives by consciously raising our vibration. Our vibration determines how we view our life circumstances

9. The Law of Relativity

Our perception of what is transpiring dictates our response. When we choose to observe a trial in our life as, what can be learned from this, we take our power back and detach from our ego and fear. We get to choose how we perceive and react to trials. Staying connected to our Heart center as we proceed to solve a problem strengthens the Light within.

10. The Law of Polarity

Everything in the Universe has its opposite including our thoughts. We can transform our lives by being the Master of our Thoughts. This is achieved by eliminating negative thoughts through concentrating on the opposite.

11. The Law of Rhythm

Rhythm is all around us. Change is our constant. Everything is moving through seasons, cycles, and stages of development. Go with the flow. Live, Love, Learn. We can rise above the challenging parts of a cycle by applying the Universal Laws to our benefit.

12. The Law of Gender

Everything has its masculine (yang) and feminine (yin) energies. These energies must be in balance for us to be a Master at manifesting. Our Divine feminine receives intuitive messages from our Divine source. Our Divine masculine takes action on these intuitive messages.
